

Interested in Renewable Energy Technologies and Sustainability?

You think that Solar Energy is the future, and you want to learn more about Concentrated Solar Power (CSP) technology?

If your answers are yes, Aalborg CSP A/S would like to invite you to our
POLYPHEM Workshop

When?

23. April 2020, 9:00am - 15:00 pm

Where?

Pontoppidanstræde 111, Room 1.177 (the auditorium), 9220 Aalborg Ø

The workshop is organized by Aalborg CSP and Aalborg University and is a unique opportunity for you to learn about Concentrated Solar Power based on a specific project (the POLYPHEM project) with renowned European research labs and industrial companies specializing in solar energy.

The workshop (*in English only*) will be packed with exciting presentations by the POLYPHEM project partners, who will introduce you to different aspects of the solar project and answer all your questions. The presentations will involve different aspects of the project related to thermal, electrical and mechatronic engineering. The partners furthermore invite you to share a lunch with them to continue the discussions.

Deadline for registration: 16 April (registration is binding)
(OBS! Max. number of participants is 120)

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under grant agreement no 764048
