

**POLYPHEM**  
THE FUTURE OF SMALL-SCALE CSP PLANTS

# POLYPHEM

Small-Scale Solar Thermal Combined Cycle

## D2.1 Modification of core-module solar-driven micro-gas-turbine

Date of delivery 31/01/2020  
Authors Simon Schütrumpf  
Institution/Company KAEFER Isoliertechnik

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 764048.

*Document tracks*

Identification		POLYPHEM_WP2_D2.1
Title	Modification of core-module solar-driven micro-gas-turbine	
Author(s)	Simon Schütrumpf	
Reviewers(s)	Alain Ferriere	
Related Work Package (s)	WP2: R&D ON SOLAR-DRIVEN MICRO-GAS-TURBINE AND ORC	
Beneficiary responsible of delivery	KAEFER Isoliertechnik	
Due date of delivery	31/12/2019	
Actual date of submission/revision	31/01/2020	
Number of pages	9	
SUMMARY	<p>This document is the deliverable D2.2 of the project POLYPHEM. It is planned in the framework of the Work Package 02.</p> <p>The document describes the setup of the Polyphem power- block which includes the gas turbine, the gear-box, the generator and the lubrication oil system.</p> <p>The content of this deliverable fully complies with the Grant Agreement number 764048 signed between the beneficiaries and the European Commission. It also complies with the project Consortium Agreement signed by the beneficiaries. This deliverable cannot replace the role neither of the Grant Agreement nor of the Consortium Agreement, which are evidence for the project.]</p>	
Dissemination level	Confidential (CO)	
Repository	<a href="https://dms.polyphem-project.eu">https://dms.polyphem-project.eu</a>
